

Objectives

To maintain the character and the vitality of the village

To provide future and existing generations with the opportunity to remain in the community

To protect and enhance the areas of biodiversity within Old Windsor

To encourage development that is of good sustainable design that is sympathetic to the local Townscape in terms of density, loss of amenity and visual intrusion

To maintain and protect the substantial archaeological sites and historic landscape for future generations.

To ensure that new development is supported by adequate infrastructure.

To ensure that development comes with suitable onsite parking.

To reduce harm to the community by seeking to minimise pollution and traffic congestion.

To enhance the facilities available to the community.
